We favor home rule for and early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.—National Republican Platform.

FARMERS, don't forget that Bryan is for free wool.

When it is all over, they can blame it on Uncle Adlai Stevenson.

How easy it is for the Democratic candidate to do things—in his mind.

SENATOR DOLLIVER is right—the American soldier never did American liberty any harm.

This party (Democratic) stands where it did in 1896 on the Money Question.—Wm. J. Bryan, Zanesville, O., Sept. 4, 1900.

The Hon. DICK CROKER has wiped up the floor with the Hon. D. B. HILL and thrown him over the ropes in the name of harmony.

should get out of the party. This year he says they should come back. Is Mr. Bryan to destroy all of his 1896 declarations?

Col. BRYAN is said to have recently sold his oat crop for more than he paid for the land a few years ago. If this thing keeps on, it will be hard for him to persuade himself that the prosperity of the country is fictitious.

"MEN, not walls, make a city" is a most appropriate inscription for the medal with which the siege of Pekin is to be commemorated. It is strongly suggestive of a "progress, not walls, make a nation" maxim for the Republican campaign banners.

"The party which will not allow the Constitution to follow the flag through the Carolinas, through Mississippi and Texas, has no occasion to distress itself about the Constitution's journey 4,000 miles across the sea."—From Republican State Platform, New York.

THE opposition press is already so discouraged over the outlook that its partisan attacks on the administration are sandwiched in between long editorials on the sea serpent and the obituaries of those who were Democrats before the party became the side show of the Populist circus.

"If there is any one who believes the Gold Standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me, because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., September 16, 1900.

CALL FOR REPUBLICAN PRIMARY CONVENTION.
A convention of the Republican voters of the several precincts of Otero county, New Mexico, will be held in each precinct of said county, Saturday, September 22, 1900, for the purpose of electing delegates to the Nominating Convention, to be held in Alamogordo, Saturday, Sept. 29, 1900. The several precincts will be entitled to Representatives as follows:

Call for a Republican Territorial Convention.

A delegate convention of the Republican voters of the Territory of New Mexico is hereby called to meet in the city of Santa Fe at ten o'clock in the morning on Wednesday, the third of October, 1900, for the purpose of placing in nomination a candidate from New Mexico to the 57th Congress, and to transact such other business as may properly come before the said convention.

The Republican electors of this territory and all those who believe in the principles of the Republican party and in its policies as announced in the National Republican platform adopted by the Republican National Convention held in the City of Philadelphia, June 19, 1900, who believe in and endorse statehood, for the Territory of New Mexico and favor an honest, fair and just administration of public affairs, in this territory, are respectfully and cordially asked to unite under this call to take part in the selection of delegates to the Territorial Convention.

Alternates will not be recognized. Proxies will only be recognized if held by citizens of the same county from which delegates giving proxies were elected.

County conventions must be held on or before Saturday, September 29, 1900. County committees will take proper action and call county conventions at such times and places as they may deem best before or on that date.

The chairmen and secretaries of the county conventions are earnestly requested to forward true notice of the proceedings of such names of the delegates elected to the Republican county convention to the secretary of this committee by the next mail after the call of such conventions.

Where there are no regularly organized county committees the members of this committee are authorized and directed to perform the duties of the county committee and act accordingly.

OF With the Old Love.
Farewell, old love—a long farewell,
I loved you more than tongue could tell,
But you must go,
Because you know
I've yielded to another's spell.
"Imperialism"—rhythmic word—
The ripples I've ever heard—
Must take your place.
I'll miss your face,
But your successor is a "bird."
Farewell, free silver—we are done;
Your race, I'm sad to say, is run.
This sad, but O!
Your race, I'm sad to say, is run.
To my new love is "naught-to-one."
I know I said, "Though all be lost
I'll cling to you at any cost."
But, O? You know,
That did not "go,"
Because I had my fingers crossed.

THE CARE OF CLOTHING.

The Degeneracy of the Moth Explained.
In the care of woollens, furs, etc., in preparing them for putting away, beating, brushing and shaking and exposing to the sun and air are time honored methods that have no substitute. This cleaning and putting away should always be done as early in the season as possible, for if left until after the moths are flying around the danger of their eggs being deposited in the garments is greatly increased, and so this point is of the greatest importance—being the "cure of prevention" which will save many "pounds of cure."

All grease spots should be carefully taken out before putting away clothing. It is commonly considered an evidence of the innate degeneracy of moths that they select the most conspicuous part of a garment for their ravages, but the real reason plainly is that the conspicuous place was the one where some grease lodged which was not removed before putting the garment away, and so the hungry feeder found it and left the evidence of its keen perceptions in the form of the disgusting holes. The all important point in putting away garments is that they should be absolutely free from larvae or eggs or no amount of maledorous preparation can save them.

Clothing that is simply hung away must be looked after frequently during the summer, and it is less trouble to put it away where moths cannot have access to it. For this the cleaning must be absolutely thorough, and then the following method is said to be very satisfactory: Get the large pasteboard boxes such as tailors use, place the thoroughly cleaned articles in them, and paste a strip of strong paper around the edge so as to seal it completely, seeing that there are no cracks anywhere. With care the boxes will last for a number of years.

A simple and satisfactory plan is to spread upon the bed a clean muslin sheet; in its center spread a fresh newspaper, upon which lay a thoroughly clean garment, cover this with another fresh newspaper, allowing it to project a little, and proceed thus alternately until a suitable amount is arranged. Now fold the sheet together from two opposite sides (do not overlap and fold as a powder is done up in its paper) and pin together. Fold and overlap the other two ends together in the same manner, pin securely and lay away. In this way they are easily done up, and an examination at any time is but little trouble, while, should a garment be imperfectly cleaned, the layers of paper will keep it separated from the other garments and so generally prevent the rest from becoming infested. The fresh newspapers in themselves are something of a protection, as moths dislike the odor of printer's ink.

When you want a pleasant physic try the new remedy, Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at W. E. Warren & Co.'s drug store.

If you stop at the Orndorff you will never go to any other hotel.

MEXICO!

An Ideal Resort for the Tourist in Summer or Winter. . .

Although not generally understood by the traveling public, there is a vast section of Mexico, the section traversed by the main line of the

Mexican Central Ry.

From the United States border to the Mexican Capital, which enjoys during the heated term in the United States a much more comfortable climate than the American summer resorts. This is due to the altitude of the table-land on which the road is located—from 3,000 to 5,000 feet above sea level.

The average temperature of this section, according to government statistics for a number of years, has been between 60 and 70 degrees Fahrenheit. Along the line of this road are to be seen the chief cities and principal points of interest in our sister Republic, while on its branches there is scenery of marvelous grandeur.

Holders of Pacific Coast excursion tickets can purchase at El Paso, Albuquerque or San Antonio, at specially reduced rates, round-trip tickets to the City of Mexico and return, such tickets being available over diverse routes going and returning in Mexico.

The MEXICAN CENTRAL is the only line running standard gauge Pullman buffet sleeping cars from the United States to the City of Mexico without change.
